Notes for Students

- Drug Screening & Background Check and TB testing are required twice: once prior to starting the program and again during enrollment before the start of the second year.
- Tuition included in this list reflects only the Radiography (RTE) program courses (46 credits). It does not include general education or support courses required for the A.S. degree.
- Students who decline the Hepatitis B or Influenza vaccines must submit a signed declination form.
- Additional costs such as living expenses, transportation, and personal needs are not included in this estimate.

*All titer results must be dated within the past ten years. Titers older than ten years will not be accepted for proof of immunity.
